Email: [abdulaziz.aldoseri@gmail.com](mailto:abdulaziz.aldoseri@gmail.com)

Website: <https://abdulaziz-aldoseri.github.io>

## Education

---

**M.Sc. Industrial Engineering (Operations Research)** 2024

Boğaziçi University, Istanbul, Turkey

GPA: 3.56/4.00; Thesis: *Natural Gas Storage Valuation Using Deep Reinforcement Learning*

**M.A. Economics** 2011

State University of New York at Binghamton, NY, USA

GPA: 3.32/4.00

**B.Sc. Business Information Systems** 2008

University of Bahrain, Manama, Bahrain

GPA: 3.29/4.00

## Awards and Fellowships

---

**Fulbright Fellowship** 2010–2012

U.S. Department of State, Bureau of Educational and Cultural Affairs

Full scholarship for M.A. Economics at SUNY Binghamton (total award approx. **USD 90,000**).

## Technical Skills

---

Optimization (LP, MILP, Metaheuristics); Machine Learning; Python, C++, SQL.

## Research Interests

---

Stochastic Optimization; Scenario-Based Modeling; Machine Learning for Decision-Making.

## Employment

---

**Research Associate, Bahrain Center for Strategic, International and Energy Studies (DERASAT)** 2014–2025

*Progressed from Research Assistant → Analyst → Research Associate, reflecting increasing research responsibility and independent project leadership.*

- Led analytical work on regional and global energy markets with emphasis on oil price dynamics, energy security, and policy implications.

- Delivered policy studies and strategic reports used by government and industry stakeholders across the GCC.
- Authored a commissioned study for the Bahrain Chamber of Commerce on sovereign wealth fund governance and fiscal strategy (contract value **USD 50,000**).
- Represented DERASAT in regional forums and media, providing expert commentary on energy developments.

## Research Output Summary

---

3 journal articles; 10+ policy studies and energy reports; 6 invited talks; 6 international media interviews; multiple expert commentaries and public-facing analyses.
